PROFESSIONAL SUMMARY

A dedicated and resourceful Computer Science professional with hands-on experience in IT support, quality assurance, project management, digital banking operations, client service, and network operations, alongside growing expertise in cloud and DevOps engineering (AWS, CI/CD, Linux, infrastructure automation). Adept at troubleshooting complex technical issues, managing project workflows, and delivering reliable system performance across diverse environments. Currently studying for an MSc in Computer Science and Technology with Business Development at Ulster University, and running my own tech consultancy, AG&Co. Proficient in remote collaboration tools such as Google Meet and Zoho Cliq, with a proven ability to work effectively both independently and within cross-functional teams.

SKILLS

- **Programming:** Python, JavaScript
- **Web Technologies:** HTML, CSS, Tailwind
- **Databases:** SQL
- **Tools:** Git, VS Code, Jitter, Figma
- **Networking & Other:** VPNs, VLANs, Troubleshooting, Motion Design
- **DevOps & Cloud:** Linux, Bash Scripting, Git, GitHub, Vagrant, VirtualBox, Apache, Nginx, CI/CD (GitHub Actions), AWS (S3, CloudFront, EC2, RDS, CloudWatch)
- Strong Communication & Interpersonal Skills
- Research & Analytical Skills
- Leadership & Team Collaboration
- Organizational Development
- Data Collection & Reporting

EXPERIENCE

Co-Founder — AG&Co. (Tech Consultancy)

Birmingham, United Kingdom — 09/2026 – Present

- Lead a tech consultancy delivering web development, QA and IT support services for clients
- Manage client relationships, project timelines and technical delivery end-to-end
- Coordinate developers and designers to deliver projects on time and to specification

IT Support, QA Specialist & Project Manager

Ideation Platform, Lagos, Nigeria — 01/2026 – 08/2026

- Co-managed and successfully delivered project tasks across multiple client engagements as assistant project lead, including the Calgary Black Chambers site (a Canadian not-for-profit empowering Black professionals and youth through mentorship, scholarships, and community development) and Lab2Doctors (a medical service platform connecting patients with healthcare professionals), coordinating team activities, tracking milestones, and ensuring timely delivery within scope and requirements
- Led the website audit and PRD for BNET Learning (bnetlearning.com), a corporate training platform, identifying security and UX issues and benchmarking against competitors including Simplilearn and General Assembly
- Restructured and quality-assured the Aetos Digital Suite — aetosng.com (Aetos Limited) and lifts.aetosng.com (Aetos Lifts Limited) — tracking issues across both sites via a structured work-breakdown sheet

- Conducted comprehensive web application testing across multiple user roles (admin, member, guest) on platforms including Lab2Doctors and the Ark of Solace Foundation website, identifying and reporting critical bugs that improved overall product stability before release
- Validated application features in Teleios Health against business and technical requirements, ensuring all deployments met quality standards and delivered a seamless user experience across devices and browsers
- Delivered consistent IT support by diagnosing and resolving hardware, software, and system issues, improving operational uptime to 90% and reducing resolution time across the team

Freelance IT Support & Portfolio Development

Self-Employed, Lagos, Nigeria — 11/2025 – 01/2026

- Managed standalone tech support contracts and resolved localized hardware, software, and application compatibility issues during employment transition
- Designed and configured localized development environments, gaining hands-on portfolio experience with multi-VM architectures (Ubuntu/CentOS via Vagrant) and standalone relational database configurations

Software Engineering Intern (National Youth Service Corps)

OurPass Digital Bank — 05/2025 – 11/2025

- Built user interfaces and designed web pages, ensuring responsive design across devices
- Built servers, databases, and APIs, and handled business logic and data processing
- Ensured timely resolution of client requests

Community Development Service — Technical Support Officer (NYSC)

Eti-Osa Local Government, Lagos — 06/2024 – 05/2025

- Led technical support for local community outreach programs as lead officer, establishing workstation environments and managing network connectivity
- Ran a Tech Awareness Program for secondary schools in Eti-Osa Local Government, Victoria Island, teaching students basic computer and digital skills
- Organized workshops and practical sessions to make learning technology fun and accessible
- Supported local community projects focused on digital literacy and simple IT solutions

Undergraduate Researcher & Lab Assistant (Student)

University of Nigeria, Nsukka — 11/2022 – 06/2024

- Conducted academic and laboratory research into Advanced Computer Networks and Distributed Cloud Systems as part of final-year undergraduate milestones
- Led a student cohort analyzing network reliability metrics, optimizing simulated data routing behaviours under structured project deadlines

Network Operations Intern

Tizeti Network Limited, Lagos, Nigeria — 07/2022 – 11/2022

- Supported configuration of routers, switches, firewalls, VPNs, and VLANs for hundreds of users and maintained 99% uptime during peak service
- Monitored network performance using tools such as Wireshark and Nagios
- Troubleshoot connectivity issues to maintain uptime

Customer Support Intern

Aladdin Digital Bank — 02/2022 – 06/2022

- Assisted customers with app navigation, mobile banking, and digital services
- Resolved inquiries and complaints, ensuring customer satisfaction
- Provided guidance on ATMs, digital tools, and transaction support

PROJECTS

- **AWS CloudWatch Monitoring:** Built a monitoring stack with SNS alarms and a CloudFront error-rate alarm and dashboard for a live static site, with full documentation on GitHub

- **Personal Portfolio Website:** Built and deployed a responsive portfolio site (agurichard.com) on AWS S3/CloudFront with GitHub Actions CI/CD (OIDC)
- **Ad Video with Jitter Animation:** Created a dynamic advertisement video using jitter effects to animate graphics and text, enhancing visual engagement. Gained practical experience in motion design and video editing for digital media projects
- **E-Commerce Website:** Developed a functional, responsive e-commerce website that facilitates buyer-seller interaction
- **Solar-Powered Base Station and Wi-Fi Deployment for Rural Connectivity:** Worked with a team to set up a solar-powered base station and Wi-Fi network to bring internet access to a rural community. Assisted in configuring the wireless network and optimizing coverage for stable connectivity
- **Network Research & Cloud Systems (University of Nigeria, Nsukka):** Conducted laboratory research into Advanced Computer Networks and Distributed Cloud Systems; analyzed network reliability metrics and optimized simulated data routing behaviors as part of final-year undergraduate milestones
- **Digital Banking Support (Aladdin Digital Bank):** Assisted customers with mobile banking navigation, resolved app and transaction inquiries, and provided hands-on guidance on ATMs and digital financial tools

EDUCATION

MSc Computer Science and Technology with Business Development

Ulster University (delivered by QA Higher Education), Birmingham — 2026 – Present

Bachelor of Science in Computer Science

University of Nigeria, Nsukka — 09/2019 – 03/2024

- Relevant Coursework: Algorithms, Data Structures, Machine Learning, Database Management, Web Development, Advanced Computer Networks, Network Security

West African Senior School Certificate (WASSCE)

Marist Brothers' Juniorate, Uturu, Abia State, Nigeria — 09/2011 – 06/2017

IELTS: 7.5 overall
